

# INTERNATIONAL SYMPOSIUM ON RUMINANT PHYSIOLOGY

SEPTEMBER 2024

**ISRP 2024**  
CHICAGO, ILLINOIS

## INTERNATIONAL SYMPOSIUM ON RUMINANT PHYSIOLOGY

ISRP is the major international symposium on ruminant physiology, providing an overview of current, important scientific findings and areas of research in the physiology of ruminants of all kinds.

American Dairy Science Association is honored to bring this prestigious event to the United States for the first time in more than 25 years.

*ADSA was established in 1906 to advance the emerging discipline of dairy science and to improve scientific practices in the dairy industry. Today, ADSA is supported by a diverse and growing global membership.*

### International Symposium on Ruminant Physiology

1800 S. Oak Street, Suite 100  
Champaign, IL 61820-6974 USA  
Phone: 217-356-3182 x110  
Fax: 217-398-4119  
Web site: [www.isrp.org](http://www.isrp.org)

### CONFERENCE OBJECTIVE

Every five years, the ISRP provides a great opportunity to present the state-of-the-art thinking and practice in ruminant physiology to an international audience of scientists. In a tradition going back more than 60 years, the symposium is an excellent venue at which to assemble researchers in the field of ruminant physiology. There is no other international scientific symposium that offers such depth of this topic.

### STRUCTURE

The 3½ day symposium will offer multiple keynote presentations, short talks selected from submitted abstracts, and poster sessions. Participants will receive a proceedings of high-quality review articles.

### WHO SHOULD ATTEND?

US and international scientists representing both academic and non-academic communities as well as graduate students.

### LOCATION

Within proximity of Chicago's O'Hare International Airport and the city of Chicago.

### RECREATION

Many recreational opportunities will also be offered to allow for both informal networking and experiencing one of the world's most beloved cities.

### REGISTRATION

Complete registration details coming soon.
